who are we?

“ BIHOMEQ GROUP STARTED ITS ACTIVITIES IN THE SCIENCE, TECHNOLOGY AND HEALTH FIELD IN THE YEAR 2012, IN MAPUTO ”.

Our firm conducts the sales of world renowned American and European brand science, technology and health products. The products we sell are the best quality and most trustworthy in the market. Our firm mostly concentrates on laboratories of biological, analytical, reference, educational and industrial & the hospital consumables and devices as its main product lines.

Bihomeq LDA has been extending its field of interest every passing day and adding new brands and products to its structure.

We take pride in positioning ourselves as a partner to our clients assisting them in achieving optimal precision, performance and results.

Our company has been selling these products in whole of Mozambique. Our products sales volume continues to increase substantially compared to each previous year.

Our firm has a wide supply web in both Europe, Japan and USA and continues to expand its product range every passing day. With this characteristic it has a young and strong structure continuously developing itself in motion.

Within our company's structure, we house a dynamic and professional team consisting of 15 members, their numbers increasing day by day, each one mastering area of expertise to support our growing client base. Our main goal is to provide our customers with competitive prices and professional after sales support.

The intellectual and property rights of the brands we work with belong to the brands themselves.

THE BIHOMEQ GROUP

- Our Product range is marketed as BIHOMEQ and which are registered brands of the BIHOMEQ GROUP
- BIHOMEQ, which services our local market in Mozambique dealing with Biological, Analytical, Industrial and General Laboratories Dealing with reagents and hospital Equipment and consumables.
- Our services the national market with reputed international brands product range

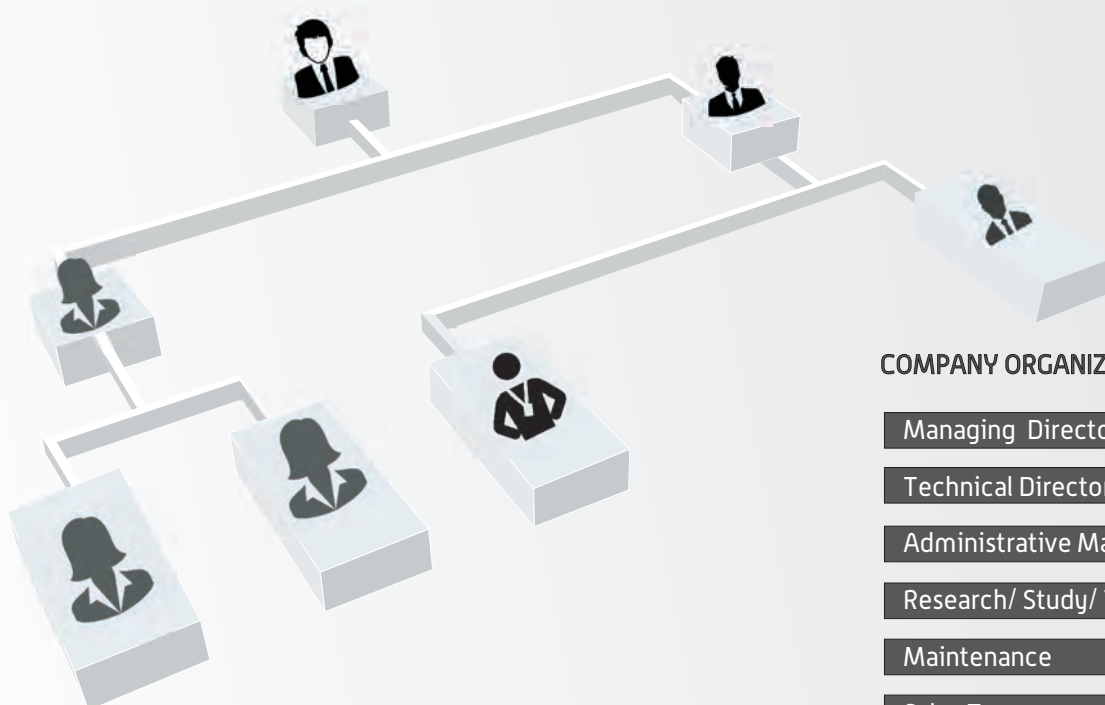

OUR MISSION

Our mission is to meet the needs of our clients by providing products that have proven their quality and credibility in the science, technology and health market while offering a competitive price. Our first priority is to ensure an accessible distance to our clients in order to give them the right service all the time. Our duty is to closely follow the process starting from the seller to the receiver until it is safely delivered and to act with this responsibility. Our representative office in each provinces provides during and after sales services in order to realize this mission.

OUR VISION

Our vision is to provide good service to our customers through our professional team, our representative offices abroad and our strong service network. BIHOMEQ LDA, developing and growing every day with a focus on its customers and quality, aims to become one of the leading firms Mozambique Science, technology and Health industry. Our company, with the goal to create solutions meeting the industry's needs, aspires to equip its clients with a competitive edge, keep the efficiency of its service at a maximum, to have an effectual business model and to provide added value. Our purpose is to take on economic and cultural responsibility toward all the organizations, establishments and companies that we cooperate with no matter how the conditions may change, and not to neglect these responsibilities.
